Education

Dr BR Ambedkar National Institute of Technology, Jalandhar

2022 – 2026

Bachelor of Technology(B.Tech) in Electrical Engineering

CGPA: 8.14

Experience

Oracle

Jan 2026 – Present

Software Developer Intern

- Enhanced Oracle's **Monetization Product Catalog Designer (MPCD)** by delivering feature improvements and resolving high-impact bugs across critical user workflows.
- Fixed accessibility issues identified by **OATB (Oracle Application Toolkit/Builder)**, improving UI compliance, usability, and overall application quality.
- Implemented **Cypress** automation scripts to validate UI functionality and prevent regressions across releases.
- Collaborated across development and QA workflows to troubleshoot issues, verify fixes, and ensure smoother user experiences for OCMPC.

Projects

AutoHireX | *n8n, AWS(basic), Docker, OpenAI*

Sep 2025

- Built a no-code AI agent using n8n, OpenAI, and Google APIs to autonomously scrape LinkedIn job listings and match them with user resumes.
- Automated job tracking workflows integrating Google Sheets, Gmail, and PDF Extractor nodes for personalized job.
- Containerized the system using **Docker** and later hosted it on **AWS** for continuous execution, scalable performance, and enhanced system reliability.

ChatDoc-AI  | *Next.js, Tailwind CSS, React, Firebase, Chat GPT, Gemini*

Feb 2025

- Developed an AI-powered document assistant using a Retrieval-Augmented Generation (RAG) pipeline, enabling users to upload PDFs and interactively query them through LLMs (Gemini, later ChatGPT).
- Leveraged advanced PDF parsing and OCR technologies to extract content and enable accurate semantic search and intelligent question-answering; the platform is actively used by 400+ users.
- Live collaboration, export chat, dark/light themes, and more — all designed to enhance usability and personalize your reading and discussion experience.

Realtime-Collaborative-IDE  | *React, Node.js, WebRTC, Yjs, Gemini API*

Dec 2024

- Built a real-time collaborative IDE enabling concurrent code editing with low-latency synchronization.
- Optimized peer-to-peer communication using WebRTC signaling with a WebSocket fallback, ensuring stable and reliable connections across diverse network conditions.
- Integrated an in-app AI-powered Bot using Gemini API to improve user query resolution speed by 60%.

Technical Skills

Languages: C++, JavaScript

Cloud/DevOps: AWS, Docker, Linux, Retrieval-Augmented Generation (RAG)

AI&Automation: n8n, OpenAI API, Gemini AI

Frameworks/Libraries: Express.js, React.js, Next.js, Node.js, Tailwind CSS, MongoDB, Firebase, Cypress.io

Coursework: Data Structures and Algorithms, Object Oriented Programming, Operating System, DBMS, CN

Achievements

- Solved **1000+** DSA problems across various platforms; achieved a **1700+** contest rating on **LeetCode**, ranking in the top 12.92% globally.
- Rated 3(1650+)** on **CodeChef**, demonstrating strong problem-solving and competitive programming skills.
- Secured **13th place** in the Graphs Contest organized by AlgoUniversity at the Institute Level.
- Ranked **Top 1.5% (74 out of 5000+ participants)** in the **ICPC Algo Queen – Girls' Programming Cup 2025**
[View Certificate](#)
- Recognized as a **Super Contributor** in **Hacktoberfest** — successfully merged **6+ PRs** to open-source projects. [View Badges](#)
- Secured **All India Rank 350** in the **Coding World Cup**, organized by **Coding Ninjas** [View Certificate](#)
