CS graduate from NIT Jalandhar with hands-on industry experience at Oracle, actively seeking Software Engineering roles.

EDUCATION

NIT Jalandhar <i>Bachelor of Technology in Computer Science</i> CGPA: 8.89/10.0	Jalandhar, Punjab, India 2022 – 2026
Akal Academy, Tibber <i>Senior Secondary Education</i> Percentage: 95.6%	Punjab, India 2019 – 2021

TECHNICAL SKILLS

Languages: Python, C++, C, MySQL
Cloud & DevOps: OCI, Kubernetes, Docker, Helm, Terraform, Vault, kubectl, CI/CD Pipelines
Developer Tools: Git/GitHub, Flask, Scapy, NetfilterQueue, VS Code
Coursework: Data Structures & Algorithms, Operating Systems, Computer Networks, DBMS, OOP

EXPERIENCE

Oracle <i>Project Intern – CEGBU</i>	Hyderabad, India Jan. 2026 – Jul. 2026
- Deployed the Lobby microservices platform across 3 new environments in an LWD tenancy on OCI-Native, expanding service availability and strengthening enterprise compliance coverage. - Configured Helm charts for Kubernetes and managed end-to-end release pipelines, owning deployment creation and delivery across multiple service components. - Set up Vault and secrets configuration via the OCI console to secure deployment environments; validated pod health through kubectl log inspection and sanity checks. - Upgraded JAR dependencies across Platform File Services repositories and performed integration testing on VMs to ensure compatibility with the latest builds.	

PROJECTS

AI-Enhanced DPI Firewall GitHub	Apr. 2025
- Built a Deep Packet Inspection firewall using NetfilterQueue and Scapy for IP/port filtering and real-time packet analysis. - Integrated ML models (Random Forest, Logistic Regression) to detect malicious payloads with 93%+ accuracy; added JA3 TLS fingerprinting for anomalous encrypted traffic detection.	
Network Packet Analyser GitHub	Oct. 2024
- Built a custom packet sniffer using Scapy to capture and parse IP/TCP/UDP headers in real-time with basic IDS logic. - Developed live traffic visualization using Socket.IO, Pandas, and Matplotlib with a minimal frontend for protocol stats.	

ACCOMPLISHMENTS

Top 10 at **HackMol 6.0** for developing *InterviewMate*, an AI-powered placement prep tool.

Solved **400+ LeetCode** problems with focus on data structures, algorithms, and optimization.

Google Cybersecurity Professional Certificate – threat detection, incident response, and SOC operations.
